ABSTRACT DEADLINE

The deadline for receipt of abstracts for the American Diabetes Association's 49th Annual Meeting and Scientific Sessions is 9 January 1989. Abstract reproduction forms are inserted in the October issues of *Diabetes Care* and *Diabetes*. Additional forms are available from the American Diabetes Association, Inc., National Service Center, 1660 Duke Street, Alexandria, VA 22314, ATTN: Division of Scientific and Medical Affairs.

FUTURE MEETINGS

36th Postgraduate Course: 19–22 January 1989, Loew's Anatole Hotel, Dallas, Texas.

49th Annual Meeting: 1–6 June 1989, Detroit, Michigan.

1989 NEW MEXICO METABOLISM SYMPOSIUM

The 1989 New Mexico Metabolism Symposium will be held 1–4 March 1989 in Taos, New Mexico. Twelve hours of CME credit will be offered to participants in the symposium, which will be cosponsored by the ADA New Mexico Affiliate, the Lovelace Foundation, and the American College of Surgeons. For more information contact Kathy Sikes, Lovelace Medical Foundation, 2441 Ridgcrest SE, Albuquerque, NM 87108. Tel.: (505) 262-7749.

DIABETES: PREPARING FOR THE FUTURE

The Roanoke Chapter of the ADA Virginia Affiliate will sponsor the course "Diabetes: Preparing for the Future" on 28 April 1989 at the Sheraton Airport Inn in Roanoke, Virginia. The 1-day course is designed for dietitians, nurses, and educators involved with the care of patients with diabetes. Course topics include current and future developments in diabetes research, nutrition, and educational techniques. In addition, participants will be able to attend 3 out of 6 workshops that will focus on practical aspects of diabetes management. For more information call Janice MacLeod, RD, CDE: (703) 981-7518; or Cathy Engel: (703) 989-7871.

4TH ANNUAL INTERDISCIPLINARY CONFERENCE ON HYPERTENSION IN BLACKS

The International Society on Hypertension in Blacks is accepting abstracts and award nominations for the 4th Annual

Interdisciplinary Conference on Hypertension in Blacks to be held 28 June through 2 July 1989 at the Kenyatta International Conference Center in Nairobi, Kenya. The conference, co-sponsored by ADA, will cover such topics as basic science as well as clinical and community research on hypertension in Blacks. Awards for Distinguished Research, Outstanding Community Service, and Outstanding Health Professional Student in Hypertension in Blacks will be presented at the conference. For information about conference registration and guidelines for abstract submissions and award nominations please contact Ms. Cecile Cate, Executive Director, International Society on Hypertension in Blacks, 69 Butler Street, SE, Atlanta, GA 30303.

IMPLICATIONS FOR THE CENTRAL NERVOUS SYSTEM

The symposium sponsored by the National Institutes of Health "Molecular and Cellular Aspects of Insulin, IGF's, and Their Receptors: Implications for the CNS" will be held 23–24 January 1989 at the University of Florida, Gainesville, Florida. Participants include G.I. Bell, David Clemmons, Argiris Efstratiadis, Douglas Ishii, Steven Jacobs, Barry I. Posner, Jesse Roth, William Rutter, Axel Ullrich, and Judson Van Wyk. For more information, contact Derek LeRoith, MD, PhD, Diabetes Branch, National Institutes of Health, tel.: (301) 496-8090, or Mohan Raizada, PhD, Gainesville, FL, tel.: (904) 372-3791.

3RD INTERNATIONAL DIABETES CONFERENCE

The 3rd International Diabetes Conference on Tissue-Specific Metabolic Alterations in Diabetes will be held 23–25 February 1989 in Florence, Italy. The conference will include invited lectures and several short communications, both oral and poster. The proceedings will be published by S. Karger, Basel. The scientific organizers of the conference are F. Belfiore, Catania, and G. M. Molinatti, Turin. For more information contact the Scientific Secretariat, 3rd International Diabetes Conference, c/o Boehringer-Biochemia-Robin, Via S. Ugguzzone, 5, 20126 Milan, Italy.

THERAPY WITH AMINO ACIDS AND ANALOGUES—1ST INTERNATIONAL CONGRESS

"Therapy With Amino Acids and Analogues—1st International Congress" will be held 7–12 August 1989 at the University of Vienna, Vienna, Austria. Experimental topics will include resorption, handling, toxicity, and metabolism. Clinical topics will include neurotransmitters, aging, collagen disorders, excitatory amino acids, diabetes, and serotonin antagonists. For more information contact Barbara Bartosch or Dr. Gert Lubec, University of Vienna, Department of Paediatrics, A 1090 Vienna, Währinger Gürtel 18, Austria. Tel.: 0222-(Vienna)-4800-3232.

RESEARCH AND DEVELOPMENT AWARDS

These awards provide a maximum of \$65,000/yr for 3 yr to support young investigators with 2–5 yr of postdoctoral research experience. The funds are to be divided between salary (restricted to a maximum of \$40,000/yr) and other grant support (restricted to a maximum of \$35,000/yr). Applicants must be U.S. citizens or permanent residents and hold independent faculty positions at U.S. university-affiliated institutions. Application deadline, 3 February 1989 for 1 July 1989 funding.

FEASIBILITY GRANTS

These grants provide up to \$40,000/yr for 2 yr for new and innovative diabetes research. The funds are to be used for equipment, supplies, and salary for technical assistance. Established diabetes investigators must propose marked departures from current research. Investigators in other fields are encouraged to apply their expertise to diabetes research. Applicants must be U.S. citizens or permanent residents and be members of U.S. university-affiliated institutions. Application deadline, 3 February 1989 for 1 July 1989 funding.

LIONS CLUBS INTERNATIONAL CLINICAL RESEARCH PROGRAM IN DIABETIC EYE DISEASE

This program supports clinical or applied research in diabetic retinopathy in the U.S. and abroad. Awards up to \$40,000/yr for 2 yr will be given to support new treatment regimens, epidemiology, and translation research. In addition, training

grants and grants for equipment will be considered. Application deadline is 3 February 1989 for 1 July 1989 funding.

CLINICAL RESEARCH GRANT PROGRAM

Grants of up to \$50,000/yr are provided for 3 yr for studies that directly involve humans. In vitro research on human blood or tissue samples to measure effects of environmentally induced (e.g., diet, drugs) changes qualifies as clinical research under this program; simply using human tissues for laboratory research does not qualify. The funds may be used for equipment, supplies, and/or salary (excluding principal investigator's salary). Applicants must be U.S. citizens or permanent residents and hold faculty-level appointments at U.S. university-affiliated institutions. Application deadline is 3 February 1989 for 1 July 1989 funding. Application forms for all programs are available by contacting the American Diabetes Association National Service Center, Division of Scientific and Medical Affairs, 1660 Duke Street, Alexandria, VA 22314. Tel.: (703) 549-1500.
