

Index

A

- Adrenal autoimmunities, insulin-dependent diabetes mellitus and, 34
 Age, diabetic retinopathy and, insulin-dependent population diagnosed before 30 years of age, 71
 Autoimmunities, thyroid, gastric, and adrenal, insulin-dependent diabetes mellitus and, 34

B

- Beta cells, destruction of, and incidence of insulin-dependent diabetes mellitus among relatives, 45

C

- Cardiovascular death, insulin-dependent diabetes mellitus and, 65
 Children, Pittsburgh insulin-dependent diabetes mellitus mortality and morbidity study, 54
 —, adolescents and, epidemiology of insulin-dependent diabetes mellitus in Finland and northern Europe, 10
 —, adolescents and, incidence of insulin-dependent diabetes mellitus in Israel, 24
 —, medical care patterns at onset of insulin-dependent diabetes mellitus and, 94
 Cholesterol, ischemic heart disease, insulin-dependent diabetes mellitus and, 65
 Continuous subcutaneous insulin infusion, mortality among users, 51
 Coxsackie B4 virus, role in insulin-dependent diabetes mellitus, 39

D

- Denmark, epidemiology and public health of insulin-dependent diabetes mellitus, 77

E

- Education, outpatient program, Rhode Island study, 61
 Encephalomyocarditis virus, role in insulin-dependent diabetes mellitus, 39

- Epidemiology, descriptive, of worldwide insulin-dependent diabetes mellitus, 5
 —, incidence of insulin-dependent diabetes mellitus among relatives, 45
 —, patient classification and practice characteristics, New York state study, 87
 —, priorities for population-based research on insulin-dependent diabetes mellitus, 1
 —, recommendations of international workshop on insulin-dependent diabetes mellitus, 5
 —, youth-onset insulin-dependent diabetes mellitus, United States and Japan study, 17
 Europe, northern, epidemiology of insulin-dependent diabetes mellitus in, 10

F

- Finland, epidemiology of insulin-dependent diabetes mellitus in, 10

G

- Gastric autoimmunities, insulin-dependent diabetes mellitus and, 34
 Genetics, incidence of insulin-dependent diabetes mellitus among relatives, 45

H

- HLA typing, changing concepts of epidemiology of insulin-dependent diabetes mellitus, 29
 Health-care services, interaction of epidemiology and, recommendations, 5
 Heart disease, ischemic, insulin-dependent diabetes mellitus and, 65
 Hospitalization, identification of problems in diabetes care in insulin-dependent diabetes mellitus, Washington state study, 82
 —, medical care patterns of insulin-dependent diabetes mellitus and subsequent complications, 94

- , precipitants of, in insulin-dependent diabetes mellitus, Rhode Island study, 61
- I**
- Incidence and prevalence of insulin-dependent diabetes mellitus in Finland and northern Europe, 10
- Incidence, increased, for insulin-dependent diabetes mellitus in United States children, comparison with Japan, 17
- , low, of insulin-dependent diabetes mellitus, in Jewish and Arab populations in Israel, 24
- , of insulin-dependent diabetes mellitus among relatives, 45
- Insulin-dependent diabetes mellitus, Pittsburgh mortality and morbidity study, 54
- , changing concepts of epidemiology, 29
- , community ecology of patient classification, 87
- , geographic differences in risk of, 101
- , ischemic heart disease and, 65
- , medical care patterns at onset, 94
- , natural history of, recommendations, 5
- , retinopathy and, Wisconsin study, 71
- , workshop purpose, 1
- International workshop on epidemiology of insulin-dependent diabetes mellitus, 1
- , list of participants, 1
- Islet cell antibodies, changing concepts of epidemiology of insulin-dependent diabetes mellitus and, 29
- Israel, incidence of insulin-dependent diabetes mellitus in children and adolescents 0–20 years old, 24
- , retrospective study of children and adolescents and insulin-dependent diabetes mellitus, 24
- J**
- Japan, comparison with United States for youth-onset of insulin-dependent diabetes mellitus, 17
- K**
- Ketoacidosis, children and, medical care patterns at onset of insulin-dependent diabetes mellitus, 94
- L**
- "Latitude rule," epidemiology in Finland and northern Europe of insulin-dependent diabetes mellitus, 10
- M**
- Mengovirus, role in insulin-dependent diabetes mellitus, 39
- Mortality, case-control analyses, Pittsburgh insulin-dependent diabetes mellitus study, 54
- , continuous subcutaneous insulin infusion and, 51
- , identification of problems in diabetes care in insulin-dependent diabetes mellitus, Washington state study, 82
- , insulin-dependent diabetes mellitus and public health aspects, Denmark study, 77
- P**
- Pancreatic beta cells, role of viruses in destruction of, 39
- Patient classification, New York state study, 87
- Population-based epidemiologic study, Washington state, 82
- Public health, insulin-dependent diabetes mellitus and, Denmark study, 77
- R**
- Registries of persons with insulin-dependent diabetes mellitus, recommendations, 5
- Registries, importance of, geographic differences in risk of insulin-dependent diabetes mellitus and, 101
- Retinopathy, diabetic, population-based study in insulin-using patients diagnosed before 30 years of age, 71
- Rhode Island, statewide study of precipitants of hospitalization in insulin-dependent diabetes mellitus, 61
- S**
- Surveillance, acute complications of new therapies for insulin-dependent diabetes mellitus, 51
- T**
- Thyroid autoimmunities, insulin-dependent diabetes mellitus and, 34
- Twins, concordance rates for insulin-dependent diabetes mellitus in, 29
- V**
- Viruses, perspectives on role of, in insulin-dependent diabetes mellitus, 39
- Y**
- Youth-onset insulin-dependent diabetes mellitus, comparison between Japan and United States, 17
